License activation

To activate license you need to be signed **into your Helion Account**.

Licenses format

Each product has its own unique license. The license are in the following format - 4 segments each with 4 characters or numbers.

- XXXX-XXXX-XXXX-XXXX
- 1234-4567-8912-3456

How to activate?

To activate license navigate to My Account button in main menu. Than on the bottom side of the manager are available products. To activate desired product click Activate on the product. Enter your license and assign it to your account.

When your license is activated restart Latras Hub and the plugin you are just activated. After this step you will have a fully working plugin.

Go to **Next page**
